Allied Waste is involved. Although I can't necessarily explain relationship, Allied Waste owns Bridgeton Landfill (Laidlaw).

Thank you very much for the clarity. Is Allied Waste no longer involved?

Tina -

We expect the RODs for both OU-1 and OU-2 to be issued final very soon. Formal CD negotiations won't begin until we get through the pre-referral process and issue special notice letters - hopefully this Spring. We may begin RD work in parallel using an administrative order.

The respondents to the existing administrative orders for RI/FS are Cotter Corp., Bridgeton Landfill, LLC (formerly Laidlaw), and Rock Road Industires, Inc. The primary point of contact for this group is outside attorney Mike Hockley, w/ Spencer Fane Britt & Browne,

mhockley@spencerfane.com (816) 292-8233.

Current OU-1 technical consultant is Paul Rosasco w/ Engineering Management Support Inc., Littleton, CO, (303) 940-3426

Current OU-2 technical consultant is Ward Herst w/ Herst & Associates, St. Charles, MO (636) 939-9111

I hope this helps,

Dan Wall

Westlake Landfill OU1 and OU2

Good afternoon Daniel -

I work with a national remedial construction firm called ENTACT. I am interested in understanding better the anticipated schedule of events/status and PRPs for each of the OUs at the Westlake Landfill. My firm is interested in competing on the future remedial action activities at the site and I was hoping you could share with me the following information so that I may contact the PRPs/Consultants direct to position my firm:

- PRPs for OU1 and contact information
- Consultant/Engineer contact information for OU1
- Status of OU1 - has the ROD been published? Has the RD/RA CD been negotiated yet? Is the RD underway? Etc.
- PRPs for OU2 and contact information
- Consultant/Engineer contact information OU2
- Status of OU2 - has the ROD been published? Has the RD/RA CD been negotiated yet? Is the RD underway? Etc.

I appreciate your time and any information you can share with me regarding this site and the various OUs. Have a great day.
